

NAME: _____

MIDI Explorations

Directions: Use the following table to make notes about the sound that you manipulated and explain your choices. An example has been complete for you.

Example:

Musical Element	What do I Like?	Why do I Like These?
Instrumentation (timbre)	8-bit piano, dubstep growler, electric guitar	It sounds like the music I like to listen to. It sounds like a video game or dubstep song.
BPM (tempo)	38 - 150 bpm	Slower than this and it gets boring. If it is faster than this it sounds like chaos.
Loudness (dynamics)	I made the bass track louder and the piano track quieter	The piano track was too loud and hurt my ears. Making hte bass track louder made it so you can hear each part better.

My Musical Choices:

Musical Element	What do I Like?	Why do I Like These?
Instrumentation (timbre)		
BMP (tempo)		
Loudness (dynamics)
